Clean Code

Dependency Injection-Hilt

Google Map

Sqllite -Room DB

PERSONAL PROJECTS

Nagpur Tourism (03/2020 - 06/2020)

- Developed an innovative Nagpur Tourism app aimed at providing a comprehensive guide for tourists visiting Nagpur, India.
- The app was initially built using Java, and I am currently engaged in the process of migrating it to Kotlin, leveraging the power of Jetpack Compose.

Interview Master (09/2020 - 12/2020)

- Developed the Interview Master app, which enhances interview preparation by providing personal and programming interview questions, along with interview videos.
- Integrated advanced features such as speech-to-text functionality and the ability to copy and share questions and answers, making the app highly user-friendly and versatile.
